To: Daniel Riordan <driordan@forestgrove-or.gov>;

Good Morning,

I'm following-up regarding a question raised during the Festival Street RFP pre-proposal meeting. The question was whether the City had drawings of the street-cross sections for the downtown area. The answer is yes, the City has drawings available for 21st Avenue within the project area and Main Street. The drawings are from prior utility projects. The files are in PDF format but CAD files may be available.

I hope this information is helpful

Best Regards,
